

WHAT IS FREDDYMATCH

FreddyMatch is a web-based platform that facilitates and optimises the process of volunteering.

We help match organisations and volunteers based on their unique interests, skill sets, location and availability using the “FreddyMatch” algorithm.

The Freddy Bear Foundation was set up in loving memory of Roxane Foulser-Piggott and Gary Bowman’s son, Frederick Donaldson Imrie Bowman, who died aged 16 days on 8th June 2017.

After Freddy passed away, they both wanted to do some volunteering that utilised their skills, but found there were no easy ways of finding opportunities.

From here FreddyMatch was born to help solve that problem.
